**Madam/Sir,**

**Sub: Revised framework for computation of Net Distributable Cash Flow (NDCF) by Infrastructure Investment Trusts (InvITs)**

1. Regulation 18(6) of SEBI (Infrastructure Investment Trust) Regulations, 2014 (“InvIT Regulations”), provides that the Net Distributable Cash Flow (NDCF) shall be computed at the level of InvIT and HoldCo/SPV. Further, the minimum distribution shall be 90% of the NDFC at the Trust level as well as the HoldCo/SPV level, subject to applicable provisions in the Companies Act, 2013 or the Limited Liability Partnership Act, 2008. Paragraph F of Chapter 3 of the Master Circular for Infrastructure Investment Trusts provides an indicative framework for calculating NDCF at SPV level and at the InvIT level.
2. In order to promote Ease of Doing Business, it has been decided to standardize the framework for calculation of available Net Distributable Cash Flows. Accordingly, the revised framework for computation of NDCF by InvITs and its Holdcos/SPVs shall be as per Annexure A.

**Applicability of revised NDCF Framework:**

3. The revised framework shall be applicable with effect from April 1, 2024 and supersedes the Framework for calculation of Net Distributable Cash Flows provided in Paragraph F of Chapter 3 of the Master Circular for Infrastructure Investment Trusts (InvITs) dated July 06, 2023.
4. This circular is being issued in exercise of powers conferred under Section 11(1) of the Securities and Exchange Board of India Act, 1992 and Regulation 33 of the InvIT Regulations. This circular is issued with the approval of the competent authority.

<b>NDCF at Trust Level</b>

**Notes/ Other Rules:**

1. NDCF computed at SPV level for a particular period to be added under this line item, even if the actual cashflows from SPV to InvIT has taken place post that particular period, but before finalization and adoption of accounts of the InvIT.
2. The specified agreements could be for either PPP or non-PPP projects. The Trust retains the option to distribute any surplus amounts, unless such surplus is required to create reserves for any subsequent period.
3. The option to retain 10% distribution under Regulation 18(6) needs to be computed by taking together the retention done at SPV level and Trust level. Refer Illustration below:

**Illustration:**

Particulars	SPV A	SPV B	Total at SPV level
NDCF as computed	100	150	250
Amount retained by SPV	5	10	15
<b>Net amount distributed to Trust</b>	<b>95</b>	<b>140</b>	<b>235</b>

InvIT	Scenario 1	Scenario 2
Received from SPV	235	235
Add:- other items at Trust level for computation of NDCF	65	(35)
<b>Total NDCF</b>	<b>300</b>	<b>200</b>
<b>Combined NDCF for computing Max retention</b>		
NDCF of Trust (A)	300	200
NDCF of SPV's (B)	250	250
Less: - Amount distributed by SPV's (C )	(235)	(235)
<b>D = A + B -C</b>	<b>315</b>	<b>215</b>
<b>Max retention amount – 10% of D</b>	<b>31.5</b>	<b>21.5</b>
Amount already retained by SPV	15	15
Max amount that can be retained by Trust	16.5	6.5

4. Further, Trust along with its SPVs needs to ensure that minimum 90% distribution of NDCF be met for a given financial year on a cumulative periodic basis as specified for mandatory distributions in the InvIT regulations (subject to provisions of Note 1 above).

5. Surplus cash available in SPVs due to:
  - (i) 10% of NDCF withheld in line with the Regulations in any earlier year or half year or
  - (ii) Such surplus being available in a new SPV on acquisition of such SPV by InvIT
  - (iii) Any other reason, excluding if such surplus cash is available due to any debt raise could be considered for distribution by the SPV to the InvIT, or by the Trust to its Unitholders in part or in full, but needs to be disclosed separately in the NDCF computation and Distribution.
  
6. Similarly, any restricted cash (disclosed as such) should not be considered for NDCF computation by the SPV or InvIT (e.g. unspent CSR balance for any year deposited in a separate account as per Companies Act which will be utilized in subsequent years, DSRA reserve, major maintenance reserve etc)
  
7. Further, it is expressly provided that no Trust or SPVs can distribute any cashflows by obtaining external debt, except to the extent clarified in note 2 above (this will exclude any working capital / OD facilities obtained by Trust/ SPVs as part of Treasury management / working capital purposes as long as they are squared off within the quarter).
  
8. Further, it is also clarified that Proceeds from sale of infrastructure investments, infrastructure assets or shares of SPVs or Investment Entity adjusted for transaction costs or repayment of debt taken for such assets or other items as mentioned above which is intended to be reinvested or planned to be reinvested as per Regulation 18(7) of InvIT Regulations, could be temporarily parked in Overdraft accounts or used to repay any additional/ unrelated debt. Further if such proceeds are not intended to be reinvested as per the timeline provided in the Regulations and such net proceeds are to be distributed back to Unitholders, then redrawing such temporarily parked funds to distribute such net proceeds will not be considered as a contravention of note 7 above.

9. Cash flows received from SPV's / Investment entities which represent distributions of NDCF computed as per relevant framework at the Trust level for further distribution to Unitholders shall exclude any such cash flows used by the Trust for onward lending to any other SPVs / Investment entities to meet operational / interest expenses or debt servicing of such other SPVs / Investment entities.
  
10. Capital expenditure include amounts incurred and paid towards asset enhancement and are capitalized to asset value in the financial statements including lease payments. It is further clarified that Existing Assets as referred to in this line item includes any new structure / building / other infrastructure constructed on an existing infrastructure asset which is already a part of the InvIT.
